EVERY PRODUCT A REFLECTION OF FRAGRANCE ART

WHO WE ARE

CAPE ISLAND was founded in 2015. The women at the helm are a formidable business team and close friends, balancing each other's strengths with grace, kindness and a healthy dose of humour. Cape Island is a team of talented and inspired individuals working together to create a legacy. The story of Africa is told through the fragrances themselves and through the dramatic artwork that adorns our packaging. We have a passion for telling stories through our inspiring products.

We are an environmentally and socially responsible company, and recognise that simply telling these stories is not enough. We donate a percentage of proceeds to local non-profit organisations that protect and advocate for the natural beauty and wildlife of Africa and believe in the betterment of our people and continent.

Our vision is to be a force for positive change.

CEO, **Suzanne Snowdowne** heads up a team of talented and dedicated women working together to create a legacy.

"I have always been fascinated by the art of crafting fragrance. How a scent can invoke a memory or an idea, even a sense of wonder.

We are a brand with a passion for telling stories through our products in a way that inspires people.

I believe that recovering and growing South Africa's economy is everyone's responsibility and wish to continue to create new opportunities to deliver on that commitment."

OUR PRODUCTS

Cape Island products are sophisticated, opulent, and kind to the environment.

We aim to raise the bar on locally manufactured products by having a strong focus on high quality natural ingredients, micro-batch production & reusable or recyclable packaging - and we're doing it all with a sense of style.

Many of our products have been designed with re-use in mind. There are a range of refills for our soaps, lotions and fragrance diffusers which give these products longevity in a disposable era.

OUR COMMITMENT

Cape Island is committed to supporting a selection of non-profit organisations that help spread a little more light in the world.

Each of our six fragrances supports a charity that speaks to its unique tribute. For each new fragrance that we create, a local African charity will benefit. These beneficiaries receive regular monetary donations based on sales of our popular classic scented candles and room sprays.

WHAT MOTIVATES US

We are devoted to our country, our industry, our clients, and our company culture.

We believe in what we are doing and where we are going. Our enthusiasm shows in our attitudes and work.

We are passionate about creating jobs and empowering the people that we work with.

We strive to find ways to change processes, perspectives, and opinions for the better and welcome the challenges that help us grow.

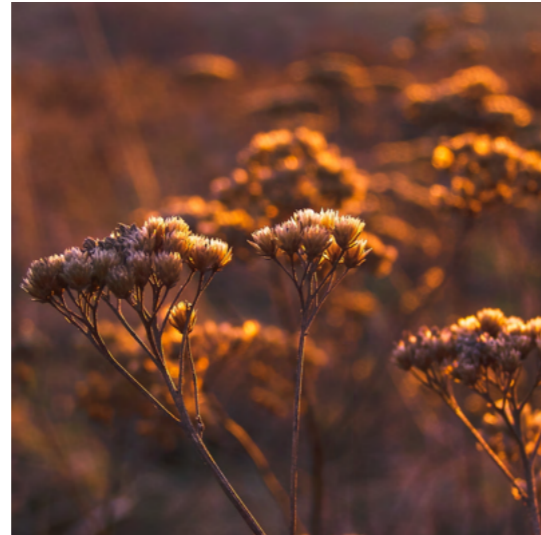

WHY FRAGRANCE?

“The beauty of fragrance is that it speaks to your heart and hopefully someone else’s.”

Fragrance draws upon the sense most connected to memory in the brain. Through smell, we can be transported mentally to a distant place or time because there's a memory, conscious or not, connected to that fragrance note.

Fragrances can make us feel joyful or inspired, and can instantly improve our disposition. The choice of aromas and scents in our daily lives can be surprisingly wholesome and can turn our homes into stimulating sensory environments.
